LOOK FOR THE LABEL.

When purchasing goods even from merchants who you know carry union label goods, always ask for union label goods and be sure that you get them to protect yourself against purchasing non-union goods that they may also have in stock. Another good reason for always demanding union label goods, even though you know the goods the merchant will sell you do bear the union label, is that you will let him know that you will always be on guard to promote the sale of union made goods and that you never forget it.

FRED E. CARTER

TO THE REPUBLICANS OF KNOX COUNTY

I was Deputy Circuit Court Clerk from August 1, 1912 to Oct. 30, 1916, and was in charge of the affairs of that office for some time prior to Jes. A. Wrinkle's death, on account of his declining health.

When appointed a deputy by Mr. Wrinkle I then had twelve years experience in general book keeping. Upon the death of Mr. Wrinkle, I was appointed clerk for the unexpired term by Judge Von A. Huffaker. I am thirty one years of age, and am the son Sam P. Carter, deceased, who was an engine carpenter at the Coster Shops for over twenty years and up to the time of his death.

By actual count 897 suits were filed in the Circuit Court during the past 14 months thus creating an enormous amount of work and requiring painstaking attention. Throughout my connection with the office, both as deputy and later as clerk, I have endeavored to render courteous, faithful, and efficient service.

Believing that a public office is a public trust: possessing none of the arts of the professional politician, and never having been a candidate before I will appreciate your influence support and votes for the nomination for Circuit Court Clerk in the approaching primary to be held March 21, 1918.

Yours very truly,

FRED E. CARTER

Prussian Finance Minister Admits No Basis for Story America Sent Transport Troops.

Amsterdam, Jan. 23.—In the lower house of the Prussian diet Dr. Franz Mehring, independent socialist, made the following inquiry: "If Canada, with less than 9,000,000 inhabitants, has been able to throw a quarter of a million soldiers into Europe, who were not able to fly or swim, what ground has the finance minister for denying to the United States, with 110,000,000 inhabitants, any military capacity?"

The minister admitted he was unable to prove his statements, concerning the American army, but was still convinced it could not come over.

With the American Army in France, Jan. 23.—More American observers have begun work at the front with French pilots in French airplanes. While their flights are in the nature of instruction they are carried out under actual battle conditions.

An official statement says Woodward declared himself a pyromaniac and had in 1916 fired a lodging house in Worcester, Mass.

Trenton, N. J., Jan. 23.—Two local option bills were passed by the New Jersey senate. Both bills were passed by large majorities.

79 PERISH IN MINE DISASTER

In the Allan Shaft of the Acadia Coal Company's Collieries at Stellarton, N. S.

Halifax.—Seventy-nine men are believed to have perished in an explosion in the Allan shaft of the Acadia Coal Company's collieries at Stellarton, N. S. Eleven men at work on a higher level at the time of the explosion made their way out safely, but the others were on the lower level and were entombed. Eight bodies have been recovered by rescue workers, who risked their lives in desperate efforts to save their comrades. The explosion occurred just after the night shift had gone to work. Dense smoke pouring from the mouth of the pit told what had happened, and every possible relief measure was promptly undertaken. The Allan shaft, one of the most productive in Canada, is also one of the most dangerous. Fires caused by spontaneous combustion are of frequent occurrence. It was recalled that 100 men lost their lives in a disaster in the same vicinity half a century ago.

MOVES TO COERCE SWEDEN

Germany Begins to Exercise Powerful Pressure on Her Neighbor, Says Amsterdam.

Amsterdam, Jan. 23.—Germany has begun to exercise powerful pressure on Sweden, according to information received here. The Cologne Gazette flatly announces that if Sweden permits America to use her tonnage, even in coastal traffic, "Germany will consider such action a breach of neutrality."

Most of American Forces Trained.

Washington.—While declining to comment directly upon the statement attributed to President Wilson that there will be twice as many American soldiers abroad next June as had been originally planned, Secretary Baker said: "The program of the department has been a constantly developing one and many difficulties and limitations have been removed or overcome. I can not discuss numbers of men in France or anticipated to be in France at any particular time, but we made substantial progress."

Moscow.—Ernest D. Sneed has received his commission as postmaster at Moscow.

Union City.—As an expected sequel to the recent city election when F. L. Pitman defeated former Mayor Coble for that office, a general shakeup in the city offices has been effected.

Dyersburg.—The Baird-Dulaney Hospital company has purchased the residence of the late Dr. I. N. Rawles, the consideration being \$10,000. This piece of property, comprising two acres of ground and a handsome residence on one of the principal streets of the city, will make an ideal site for a hospital.

EUROPE NEEDS FOOD

Food Administration Opposes
Absolute Sin to Waste Food—Food
Has Become Sacred.

Europe is still sending an insistent call for more food. We must send it if the war is to go on efficiently. If we eat it all we cannot ship it, and the food administration has already tried to picture how much that wheat is needed by people who will starve if they do not get it, the food administration states.

"For the least bit of heedlessness on your part in food conservation some one somewhere in the world must suffer privation," an official statement declares. "The food administration has mastered the problem of America's food in such a way that every ounce of food conserved and kept in the currents of trade goes to an empty stomach in Europe."

"It is an absolute sin to waste food. Food has become sacred. 'Food means life; it means some body's life, and you cannot escape responsibility. 'There is no waste of food among the allied nations.'"

SEIZURE OF HOUSEWIVES' FOOD STOCKS IMPOSSIBLE
The government has never considered any plan of seizing foodstuffs owned by householders. Nor is there any policy of this kind suggested for the future.

In spite of this fact, the United States food administration has been obliged repeatedly to issue official denials of rumors that the government intends commandeering preserves and canned goods put up in American homes.

These rumors were originated partly by pro-German propagandists and partly by conscienceless grafters, who sought to profit through buying from misinformed housewives.

The year 1918 will see home canning and preserving practiced on greater scale than ever before in the nation's history, officials in Washington believe. And they are assuring all patriotic housewives that foods so saved are theirs, and theirs alone.
